

inReach SE

THE SATELLITE COMMUNICATOR THAT SENDS AND RECEIVES MESSAGES ANYWHERE IN THE WORLD.

inReach SE from DeLorme. The next-generation of the groundbreaking, award-winning satellite communicator that both sends and receives text messages – all from one device that fits in the palm of your hand. Give your field team peace of mind knowing they can be reached and rescued anywhere in the world. inReach SE is an ideal solution for addressing employer duty of care concerns or improving field communication and reporting.

Comes with our 24/7 search and rescue monitoring center or your own emergency response center.

Tracking intervals from 1 minute to 4 hours allow you to track field workers' locations, including GPS coordinates, course and elevation.

Send and receive 160-character text messages with GPS coordinates to cell numbers or email addresses worldwide.*

Pairs with smartphones and tablets for navigation and enhanced messaging capabilities.

Comes with our full-featured back office solution for advanced tracking of multiple users and other pro features.

100% global coverage through the Iridium satellite network.

inREACH SE: HOW IT WORKS

EASY TO USE HOMESCREEN

Access and view on-screen messages, tracking information, subscription data usage and user settings.

CONVENIENT 160-CHARACTER MESSAGING

Send and receive text messages worldwide, including a delivery confirmation from the satellite.

VIRTUAL KEYBOARD WITH PREDICTIVE TEXT

Makes sending free-form text messages possible without pairing inReach to a mobile device.

INTERACTIVE SOS COMMUNICATIONS

Interact with emergency monitors to communicate the nature of your SOS and exchange updates throughout the rescue.

*Email, SOS and Tracking functions work anywhere in the world; SMS availability may vary by country.

WE HAVE GREAT PLANS FOR EMPLOYERS.

inReach SE can be activated on the Explore portal or the Enterprise portal. The Enterprise portal offers enhanced monitoring, configuration and tracking options that the Explore portal does not.

| Supported Features | Explore Portal | Enterprise Portal |
|------------------------------------|--------------------------|-------------------------|
| Interactive text and SOS messaging | ✓ | ✓ |
| Broadcast messages | | ✓ |
| Monitor multiple users | ✓ | ✓ |
| Selectable tracking intervals | 10 min - 4 hrs | 1 min - 4 hrs |
| GEOS emergency monitoring service | Included | Optional (\$4.95/month) |
| Create/manage groups | | ✓ |
| View/access history | 1 year | 1 year |
| Data export | ✓ | ✓ |
| API integration | | Optional |
| Applicable subscription plan | Standard (message based) | Pro (byte based) |

inReach SE can also be activated with Standard subscription plans and the standard Explore back-office, details can be found at inreachcanada.com/service-plans.

PRO SUBSCRIPTION PLANS

We offer byte-based billing plans for professional users and enterprises. Pro plans are designed to optimize the value of your airtime with use-based pricing that applies to any usage type, as compared to event-based pricing (i.e. tracks and messages).

- No annual contracts
- Switch plans at any time*
- Suspend service in the off-season[†]
- Allocate data towards any usage type

| Byte Based Plans | Pro 3K | Pro 10K | Pro 20K |
|--|---------|---------|---------|
| Monthly Fee | \$29.95 | \$49.95 | \$69.95 |
| Bytes included | 3,000 | 10,000 | 20,000 |
| Equivalent Tracks | 150 | 500 | 1,000 |
| Or Equivalent Messages | 40 | 125 | 250 |
| Overage (per 10 bytes) | 10¢ | 8¢ | 8¢ |
| Optional: GEOS SOS monitoring (per user monthly) | \$4.95 | \$4.95 | \$4.95 |

Note \$60 initial activation fee applies to all plans.

[†] Any plan can be suspended for \$9.95/month.

* There is no admin fee to upgrade/downgrade your plan.

Equivalent tracks and messages are estimates based on an average of 20 bytes per track and 80 bytes per message.
